AVU-E-12-08/AVU-G-12-07

Dear Avista Team Member,

My daughter and I thought we would write you and make a few comments on the proposed increase.

We love paying our electric payment each month and I saw the pie chart in two mounts ago bill. I am wondering if this increase will cut back the coal usage and if you guys could invest more with hydro electricity purchase. I have heard rumors that the coal trains look beautiful during the winter months however, please try to get it to min 25%. We love you Avista
