RE: Letter from Idaho Power about suspension of A/C Cool Credit in 2013.

If Idaho Power plans to suspend this credit (with your approval) why did they go to the expense of installing new boxes on our two air conditioners this past fall? This involved a cost of material and labor.

Also, we are amazed that Idaho Power donated $10,000 to the "Yes on Props 1, 2 & 3" initiative drive. Seemingly they had deep pockets here.

And, yet, it is my understanding they would prefer not to be involved with buying "green energy". Or, at least, as little as possible.

I want assurance that all customers will benefit if A/C Cool Credit is abolished.

Thank you, Respectfully Betty & John Foster
