I'm writing in opposition to the rate request for Island Park Water Company.

I'm not opposed to some sort of small request. I have a Cabin in the Henrys Lake Outlet area.

I might get there 3 or 4 times a year. so I use very little water. But there are several people who water there lawn every day they keep there lawn better and greener than I can at home. May-be instead of a rate increase they should be putting meters and charging for the amount of water that is used. Again these people live there all summer and fall there I dont believe its fair for me to support there habbits.

Sincerely

Cary R Baird
