INSTRUCTIONS FOR FILING THE  
FERC FORM NO. 2

GENERAL INFORMATION

I. Purpose

This form is designed to collect financial and operational information from major interstate natural gas companies subject to the jurisdiction of the Federal Energy Regulatory Commission. This report is a nonconfidential public use form.

II. Who Must Submit

Each Major natural gas company which meets the filing requirements of 18 CFR 260.1 must submit this form.

NOTE: Major means having combined gas transported or stored for a fee exceeding 50 million Dth in each of the 3 previous calendar years.

III. What and Where to Submit

- (a) Submit the electronic medium in accordance with the procedures specified in 18 CFR § 385.2011 and an original and four (4) copies of this form to:

Office of the Secretary  
Federal Energy Regulatory Commission  
Washington, DC 20426

Retain one copy of this report for your files.

- (b) Submit immediately upon publication, four (4) copies of the latest annual report to stockholders and any *annual* financial or statistical report regularly prepared and distributed to bondholders, security analysts, or industry associations. (Do not include monthly and quarterly reports. Indicate by checking the appropriate box on page 3, List of Schedules, if the reports to stockholders will be submitted or if no annual report to stockholders is prepared.) Mail these reports to:

Chief Accountant  
Federal Energy Regulatory Commission  
Washington, DC 20426

- (c) For the CPA certification, submit with the original submission of this form, a letter or report (not applicable to respondents classified as Class C or Class D prior to January 1, 1984) prepared in conformity with current standards of reporting which will:

- (i) contain a paragraph attesting to the conformity, in all material respects, of the schedules listed below with the Commission's applicable Uniform System of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and

**GENERAL INFORMATION**

- (ii) be signed by independent certified public accountants or independent licensed public accountants, certified or licensed by a regulatory authority of a State or other political subdivision of the United States (See 18 CFR 158.10-158.12 for specific qualifications.)

- (d) Federal, State and Local Governments and other authorized users may obtain additional blank copies to meet their requirement free of charge from:

Public Reference and Files Maintenance Branch  
Washington, DC 20426  
(202) 208-2356

**IV. When to Submit**

Submit this report form on or before April 30th of the year following the year covered by this report.

**V. Where to Send Comments on Public Reporting Burden**

The public reporting burden for this collection of information is estimated to average 2,475 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any aspect of this collection of information, including suggestions for reducing this burden, to the Federal Energy Regulatory Commission, Washington, DC 20426 (Attention: Michael Miller, ED-12.4); and to the Office of Information and Regulatory Affairs, Office of the Management and Budget, Washington, DC 20503 (Attention: Desk Officer for the Federal Energy Regulatory Commission).

You shall not be penalized for failure to respond to this collection of information unless the collection of information displays a valid OMB control number.

## GENERAL INSTRUCTIONS

- I. Prepare this report in conformity with the Uniform Systems of Accounts (18 CFR 201)(U.S. of A.). Interpret all accounting words and phrases in accordance with the U.S. of A.
- II. Enter in whole numbers (dollars or Dth) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important.) The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use the current year amounts for statement of income accounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page(s) that is not applicable to the respondent, either
  - (a) Enter the words "Not Applicable" on the particular page(s), or
  - (b) Omit the page(s) and enter "NA," "NONE," or "Not Applicable" in column (d) on the List of Schedules, pages 2 and 3.
- V. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" at the top of each page is applicable only to resubmissions (see VII. below).
- VI. Indicate negative amounts (such as decreases) by enclosing the figures in parentheses ( ).
- VII. When making revisions, resubmit the electronic medium and only those pages that have been changed from the original submission. Submit the same number of copies as required for filing the form. Include with the resubmission the Identification and Attestation, page 1. Mail dated resubmissions to:  
Chief Accountant  
Federal Energy Regulatory Commission  
Washington, DC 20426
- VIII. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement (8 1/2 by 11 inch size) to the page being supplemented. Provide the appropriate identification information, including the title(s) of the page and the page number supplemented.
- IX. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.
- X. Wherever (schedule) pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why the different figures were used.
- XI. Report all gas volumes in MMBtu and Dth.
- XII. Respondents may submit computer printed schedules (reduced to 8 1/2 x 11) instead of the schedules in the FERC Form 2 if they are in substantially the same format.
- XIII. Report footnotes on pages 551 and 552. Sort data on page 551 by page number. Sort data on page 552 by footnote number. The page number component of the footnote reference is the first page of a schedule whether it is a single page schedule or a multi-page schedule. Even if a footnote appears on a later page of a multi-page schedule the footnote will only reference the first page of the schedule. The first page of a multi-page schedule now becomes a proxy for the entire schedule. For example, Gas Plant in Service ranges across pages 204 through 209. A footnote on page 207 would contain a page reference of 204.

## DEFINITIONS

- I. Btu per cubic foot—The total heating value, expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60°F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32°F, and under standard gravitational force (980.665 cm. per sec. ) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state (called gross heating value or total heating value).
- II. Commission Authorization—The authorization of the Federal Energy Regulatory Commission, or any other Commission. Name the Commission whose authorization was obtained and give date of the authorization.
- III. Dekatherm—A unit of heating value equivalent to 10 therms or 1,000,000 Btu.
- IV. Respondent—The person, corporation, licensee, agency, authority, or other legal entity or instrumentality on whose behalf the report is made.

## EXCERPTS FROM THE LAW

### (Natural Gas Act, 15 U.S.C. 717-717w)

"Sec.10(a). Every natural-gas company shall file with the Commission such annual and other periodic or special reports as the Commission may by rules and regulations or order prescribe as necessary or appropriate to assist the Commission in the proper administration of this act. The Commission may prescribe the manner and form in which such reports shall be made and require from such natural-gas companies specific answers to all questions upon which the Commission may need information. The Commission may require that such reports shall include, among other things, full information as to assets and liabilities, capitalization, investment and reduction thereof, gross receipts, interest due and paid, depreciation, amortization, and other reserves, costs of facilities, cost of maintenance and operation of facilities for the production, transportation, delivery, use, or sale of natural gas, cost of renewal and replacement of such facilities, transportation, delivery, use, and sale of natural gas..."

"Sec. 16. The Commission shall have power to perform any and all acts, and to prescribe, issue, make, amend, and rescind such orders, rules, and regulations as it may find necessary or appropriate to carry out the provisions of this act. Among other things, such rules and regulations may define accounting, technical, and trade terms used in this act; and may prescribe the form or forms of all statements declarations, applications, and reports to be filed with the Commission, the information which they shall contain, and time within which they shall be filed..."

## GENERAL PENALTIES

"Sec.21(b). Any person who willfully and knowingly violates any rule, regulation, restriction, condition, or order made or imposed by the Commission under authority of this act, shall, in addition to any other penalties provided by law, be punished upon conviction thereof by a fine of not exceeding \$500 for each and every day during which such offense occurs."

**SECURITY HOLDERS AND VOTING POWERS**

1. Give the names and addresses of the 10 security holders of the respondent who, at the date of the latest closing of the stock book or compilation of list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes that each could cast on that date if a meeting were held. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.), duration of trust, and principal holders of beneficiary interests in the trust. If the company did not close the stock book or did not compile a list of stockholders within one year prior to the end of the year, or if since it compiled the previous list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.

2. If any security other than stock carries voting rights, explain in a supplemental statement

how such security became vested with voting rights and give other important details concerning the voting rights of such security. State whether voting rights are actual or contingent; if contingent, describe the contingency.

3. If any class or issue of security has any special privileges in the election of directors, trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote.

4. Furnish details concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets any officer, director, associated company, or any of the ten largest security holders is entitled to purchase. This instruction is inapplicable to convertible securities or to any securities substantially all of which are outstanding in the hands of the general public where the options, warrants, or rights were issued on a prorata basis.

1. Give date of the latest closing of the stock book prior to end of year, and in a footnote, state the purpose of such closing:  November 17, 2000	2. State the total number of votes cast at the latest general meeting prior to the end of year for election of directors of the respondent and number of such votes cast by proxy Total: 9,189,626 By proxy: 0	3. <b>IMPORTANT CHANGES DURING THE YEAR</b>			
<p style="text-align: center;"><b>1. CHANGES AND ADDITIONS TO FRANCHISE RIGHTS</b></p> <p>Franchise rights were obtained by Questar Gas Company in the calendar year of 2000 from the following:</p> <ul style="list-style-type: none"> <li>Town of Brian Head, Utah</li> <li>City of Herriman, Utah</li> <li>City of Marriott-Slaterville, Utah</li> <li>City of Taylorsville, Utah</li> <li>Town of Wales, Utah</li> </ul> <p>The provision of natural gas service to the municipality and its residents was consideration of the franchise. In addition, a nominal fee of \$50 was paid to these municipalities, with the exception of the Town of Brian Head.</p> <p style="text-align: center;"><b>9. IMPORTANT LEGAL PROCEEDINGS</b></p> <p><b>Rate Matters</b></p> <p>On August 11, 2000, the Public Service Commission of Utah (PSCU) issued an order in the general rate case filed by Questar Gas. The PSCU granted \$13.5 million in general rate relief and authorized an 11% return on equity. The \$13.5 million in general rate relief includes the \$7.1 million in interim rate relief that Questar Gas was authorized to collect, subject to refund, effective January 1, 2000. The PSCU's order allows Questar Gas to collect \$5 million of carbon-dioxide-processing costs yearly.</p> <p>In February 2000, the Public Service Commission of Wyoming (PSCW) reaffirmed Questar Gas's 11.83% authorized return on equity in a general rate case filing and approved the request for a \$377,000 rate reduction. Cost efficiencies and slower population growth in Wyoming compared with Utah, enabled Questar Gas to reduce its rates in Wyoming. The PSCW's rate-ruling also ordered the Company to transfer the recovery of carbon dioxide gas processing costs from gas costs to general rates beginning April 2000.</p> <p>Questar Gas routinely files semi-annual applications with the PSCU and the PSCW requesting permission to reflect annualized gas cost increases or decreases depending on gas prices. These requests for gas cost increases or decreases are passed on to customers on a dollar-for-dollar basis with no markup.</p> <p>On May 31, 2000, Questar Gas filed with the PSCW to reflect annualized gas costs of \$11.1 million in rates for Wyoming customers. The filing reflected a \$53,000 increase from the previous filing. The PSCW authorized Questar Gas to reflect the request in rates effective July 1, 2000. On June 14, 2000, Questar Gas filed a request with the PSCU to reflect annualized gas costs of \$286.6 million in rates for Utah customers effective July 1, 2000. The request slightly decreased rates for residential and commercial customers. However, the PSCU, by an interim order, chose to make no adjustment in rates.</p> <p>Due to the rapidly rising gas prices caused by a high demand for energy, Questar Gas filed an out-of-period pass-on application on September 19, 2000, with the PSCW seeking approval to reflect an increase of annualized gas costs of \$2.5 million in rates for Wyoming customers. The PSCW authorized the requested gas-cost increase in rates effective October 1, 2000. On September 20, 2000, Questar Gas filed a special pass-through application with the PSCU requesting permission to reflect annualized gas cost increases of \$63.5 million in rates for Utah customers. The PSCU, by interim order, authorized Questar Gas to reflect the increase in rates effective October 1, 2000.</p>

**IMPORTANT CHANGES DURING THE YEAR**

**9. IMPORTANT LEGAL PROCEEDINGS CONTINUED**

As a result of a continuing growing demand for energy and the accompanying pressure on energy prices, Questar Gas filed on December 19, 2000, with the PSCU to reflect a \$167.5 million increase of annualized gas cost in rates for Utah customers. The PSCU, by interim order, authorized Questar Gas to reflect the increase in rates effective January 1, 2001. On December 19, 2000, Questar Gas filed an application with the PSCW to increase gas costs in Wyoming rates by \$7.1 million. The PSCW authorized the increase in Wyoming gas rates effective January 1, 2001.

**Litigation and Commitments**

The Company is a named defendant in two cases that have been filed by Jack Grynberg, an independent producer that has sued Questar Gas and its affiliates a number of times during the last eight years. The most active case involves claims brought by Mr. Grynberg under the Federal False Claims Act. It and the 75 substantially similar cases filed by Grynberg against pipelines and their affiliates have been consolidated for discovery and pre-trial discovery motions in Wyoming's federal district court. The cases involve allegations of industry-wide mismeasurement and undervaluation of gas volumes on which royalty payments are due the federal government. The complaint seeks treble damages and imposition of civil penalties. The Questar defendants in the case have joined with other defendants to file a comprehensive motion to dismiss, which has not yet been ruled on by the federal district judge.

A second Grynberg case was filed against Questar Gas and several affiliates in 1997. This case involves claims of fraud and antitrust violations in addition to some take-or-pay, breach of contract, and intentional interference with a contract claims. The case was stayed pending Grynberg's appeal of another case involving the Company to the Tenth Circuit Court of Appeals, although the district court did rule favorably on some issues before the case was stayed. The district court has not ruled on the defendant's motions for summary judgement.

Questar Gas and several affiliates are among the 220 named defendants in the *Quinque Operating Company v. Gas Pipelines*, which was recently transferred from the Wyoming federal district court where it had been consolidated with the Grynberg cases to the Kansas state court where it had been originally filed. This case is very similar to the cases filed by Mr. Grynberg against the pipeline industry, but the allegations of systematic mismeasurement of natural gas volumes and resulting underpayment of royalties are made on behalf of private and state lessors, rather than on behalf of the federal government.

There are other various legal proceedings against the Company. While it is not currently possible to predict or determine the outcomes of these proceedings, it is the opinion of management that the outcomes will not have a material adverse effect on the Company's results of operations, financial position or liquidity.

Historically, 45% to 50% of Questar Gas's gas-supply portfolio has been provided from company-owned gas reserves at the cost of service. The remainder of the gas supply has been purchased from various suppliers under agreements with a duration of one year or less and index-based pricing. Generally, at the conclusion of the heating season and after a bid process, new agreements for the upcoming heating season are put into place. Questar Gas bought significant quantities of natural gas under purchase agreements amounting to \$184 million, \$93 million and \$100 million in 2000, 1999 and 1998, respectively. In addition, Questar Gas makes use of various storage arrangements to meet peak-gas demand during certain times of the heating season.

<b>STATEMENT OF RETAINED EARNINGS FOR THE YEAR</b>					
1. Report all changes in appropriated retained earnings, unappropriated retained earnings, and unappropriated undistributed subsidiary earnings for the year.			5. Show dividends for each class and series of capital stock.		
2. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433, 436-439 inclusive). Show the contra primary account affected in column (b).			6. Show separately the State and Federal income tax effect of items shown in account 493, Adjustments to Retained Earnings.		
3. State the purpose and amount for each reservation or appropriation of retained earnings.			7. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservation or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.		
4. List first account 439, Adjustments to Retained Earnings, reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit items, in that order.			8. At lines 3,4,7,9,11. And 15, add rows as necessary to report all data. When rows are added, the additional row numbers should follow in sequence, e.g., 3.01, 3.02, etc.

**NOTES TO FINANCIAL STATEMENTS**

1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Cash Flows, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.

2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.

3. For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the

year, and plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.

4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.

5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.

6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 114-121, such notes may be attached hereto.

Note 1 - Summary of Accounting Policies

Questar Gas Company (the Company or Questar Gas), is a wholly-owned subsidiary of Questar Regulated Services Company (Regulated Services). Regulated Services is a holding company and a wholly-owned subsidiary of Questar Corporation (Questar). Regulated Services was organized in 1996 and provides administrative, accounting, engineering, legal and regulatory functions for its three subsidiaries, Questar Gas, Questar Pipeline Company (Questar Pipeline) and Questar Energy Services. Significant accounting policies are presented below.

**Business and Regulation:** Questar Gas distributes natural gas to residential, commercial and industrial customers. The Company is regulated by the Public Service Commission of Utah (PSCU) and the Public Service Commission of Wyoming (PSCW). While Questar Gas also serves a small area of southeastern Idaho, the Public Utilities Commission of Idaho has deferred to the PSCU for rate oversight of this area. These regulatory agencies establish rates for the sale and transportation of natural gas. The regulatory agencies also regulate, among other things, the extension of natural gas facilities. Regulation is intended to permit the recovery, through rates, of the cost of service including a return on investment.

The financial statements are presented in accordance with regulatory requirements. Methods of allocating costs to time periods, in order to match revenues and expenses, may differ from those of nonregulated businesses because of cost-allocation methods used in establishing rates.

The amounts included as regulatory assets on the balance sheet include income taxes recoverable from customers, early retirement window costs and gains and losses on the reacquisition of debt.

**Use of Estimates:** The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosure of contingent liabilities reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Revenue Recognition:** Revenues are recognized in the period that services are provided or products are delivered. Questar Gas accrues gas-distribution revenues for gas delivered to residential and commercial customers but not billed at the end of the accounting period.

NOTES TO FINANCIAL STATEMENTS (Continued)			

**Purchased-Gas Adjustments:** Questar Gas accounts for purchased-gas costs in accordance with procedures authorized by the PSCU and PSCW under which purchased-gas costs that are different from those provided for in the present rates are accumulated and recovered or credited through future rate changes.

**Cash and Cash Equivalents:** Cash equivalents consist principally of repurchase agreements with maturities of three months or less. In almost all cases, the repurchase agreements are highly liquid investments in overnight securities made through commercial bank accounts that result in available funds the next business day.

**Property, Plant and Equipment:** Property, plant and equipment are stated at cost. The provision for depreciation and amortization is based upon rates that will systematically charge the costs of assets over their estimated useful lives. The costs of natural gas distribution property, plant and equipment, excluding gas wells, are amortized using the straight-line method ranging from 3% to 33% per year. The average depreciation and amortization rates used for the twelve months ended December 31, were as follows:

	2000	1999	1998
Distribution plant	4.0%	4.2%	4.3%
Gas wells, per M	\$0.15	\$0.15	\$0.17

**Allowance for Funds Used During Construction:** The Company capitalized the cost of capital during the construction period of plant and equipment using a method required by regulatory authorities. Capitalized financing costs, called allowance for funds used during construction (AFUDC), consist of debt and equity portions. The debt portion of AFUDC is recorded as a reduction of interest expense and the equity portion is recorded in other income. The debt expense was reduced by \$909,000 in 2000, \$358,000 in 1999 and \$797,000 in 1998.

**Reacquisition of Debt:** Gains and losses on the reacquisition of debt are deferred and amortized as debt expense over the life of the replacement debt in order to match regulatory treatment.

**Income Taxes:** The Company accounts for income tax expense on a separate return basis. Pursuant to the Internal Revenue Code and associated regulations, the Company's operations are consolidated with those of Questar and its subsidiaries for income tax reporting purposes. The Company records tax benefits as they are generated. The Company receives payments from Questar for such tax benefits as they are utilized on the consolidated return. The Company records increases in deferred taxes as income taxes recoverable from customers. The Company has adopted procedures with its regulatory commissions to include under-provided deferred taxes in customer rates on a systematic basis. Questar Gas uses the deferral method to account for investment-tax credits as required by regulatory commissions.

**New accounting standard:** The Company is required to adopt the accounting provisions of Statement of Financial Accounting Standards 133, as amended, "Accounting for Derivative Instruments and Hedging Activities" (SFAS 133) beginning January 1, 2001. SFAS 133 addresses the accounting for derivative instruments, including certain derivative instruments embedded in other contracts. Under the standard, entities are required to carry all derivative instruments in the balance sheet at fair value. The accounting for changes in fair value, which result in gains or losses, of a derivative instrument would either be reported in income or comprehensive income. The Company has identified a number of contracts that are derivative instruments as defined by SFAS 133, but are specifically excluded from the provisions of SFAS 133 on the basis of normal sales and purchase transactions. The Company does not enter into any commodity or interest rate-based derivative instruments.

GAS PLANT IN SERVICE (Accounts 101, 102, 103 and 106) IDAHO				
<p>1. Report below the original cost of gas plant in service according to the prescribed accounts.</p> <p>2. In addition to Account 101, Gas Plant in Service (Classified), this page and the next include Account 102, Gas Plant Purchased or Sold; Account 103, Experimental Gas Plant Unclassified; and Account 106, Completed Construction Not Unclassified-Gas.</p> <p>3. Include in column (c) or (d), as appropriate, corrections of additions and retirements for the current or preceding year.</p> <p>4. Enclose in parentheses credit adjustments of plant accounts to indicate the negative effect of such accounts.</p> <p>5. Classify Account 106 according to prescribed accounts, on an estimated basis if necessary, and include the entries</p>		<p>in column (c). Also to be included in column (c) are entries for reversals of tentative distributions of prior year reported in column (b). Likewise, if the respondent has a significant amount of plant retirements which have not been classified to primary accounts at the end of the year, include in column (d) a tentative distribution of such retirements, on an estimated basis, with appropriate contra entry to the account for accumulated depreciation provision. Include also in column (d) reversals of tentative distributions of prior year of unclassified retirements. Attach supplemental statement showing the account distributions of these tentative classifications in columns (c) and (d),</p>

<p>including the reversals of the prior years tentative account distributions of these amounts. Careful observance of the above instructions and the texts of Accounts 101 and 106 will avoid serious omissions of the reported amount of respondent's plant actually in service at end of year.</p> <p>6. Show in column (f) reclassifications or transfers within utility plant accounts. Include also in column (f) the additions or reductions of primary account classifications arising from distribution of amounts initially recorded in Account 102. In showing the clearance of Account 102, include in column (e) the amounts with respect to accumulated provision for depreciation, acquisition adjust-</p>		<p>ments, etc., and show in column (f) only the offset to the debits or credits distributed in column (f) to primary account classifications.</p> <p>7. For Account 399, state the nature and use of plant included in this account and if substantial in amount submit a supplementary statement showing subaccount classification of such plant conforming to the requirements of these pages.</p> <p>8. For each amount comprising the reported balance and changes in Account 102, state the property purchased or sold, name of vendor or purchaser, and date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give also date of such filing.</p>

**GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE**

1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.
2. Show below the computation of allowance for funds used during construction rates, in accordance with the provisions of Gas Plant Instructions 3 (17) of the U. S. of A.
3. Where a net-of-tax rate for borrowed funds is used, show the appropriate tax effect adjustment to the computations below in a manner that clearly indicates the amount of reduction in the gross rate for tax effects.

- A. Construction overhead charged to construction represents the indirect labor and administrative costs applicable to construction.
- B. A work order is used to accumulate overhead costs, these charges are then cleared to open work orders.
- C. Overhead is charged to construction based on a percentage of monthly cost charged to construction projects. This rate will vary periodically depending upon the amount of overhead accumulated and the construction activity percentage.
- D. The calculated rate is applied to all types of construction.
- E. None
- F. Overhead is directly assigned to each work order.

**COMPUTATION OF ALLOWANCE FOR FUNDS USED DURING CONSTRUCTION RATES**

For line 1(5), column (d) below, enter the rate granted in the last rate proceeding. If such is not available, use the average rate earned during the preceding three years.

1. Components of Formula (Derived from actual book balances and actual cost rates):

Line No.	Title (a)	Amount (b)	Capitalization Ratio (Percent) (c)	Cost Rate Percentage (d)
(1)	Average Short-Term Debt	S 61,150,000		
(2)	Short-Term Interest			s 6.56
(3)	Long-Term Debt	D 225,000,000	45.84%	d 7.74
(4)	Preferred Stock	P 0	0.00%	p 0.00
(5)	Common Equity	C 265,842,130	54.16%	c 11.00
(6)	Total Capitalization	490,842,130	100%	
(7)	Average Construction Work in Progress Balance	W 36,919,226		

2. Gross Rate for Borrowed Funds

$$\frac{S}{W} \left( \frac{D}{D+P+C} \right) + d \left( \frac{S}{W} \right) (1 - \frac{D}{D+P+C}) = 6.56\%$$

3. Rate for Other Funds

$$[1 - \frac{S}{W}] \left[ \frac{P}{D+P+C} \right] + c \left( \frac{C}{D+P+C} \right)$$

4. Weighted Average Rate Actually Used for the Year:

- a. Rate for Borrowed Funds - 6.56%
- b. Rate for Other Funds -

The provisions of Account 108 in the Uniform System of Accounts require that retirements of depreciable plant be recorded when such plant is removed from</p> | <p>service. If the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.</p> <p>4. For bonds assumed by the respondent, include in column (a) the name of the issuing company as well as a description of the bonds. 3. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received. 4. For receivers' certificates, show in column (a) the name of the court and date of court order under which such certificates were issued.

**RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME  
FOR FEDERAL INCOME TAXES**

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal Income Tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.

2. If the utility is a member of a group that files consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, inter-company amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.

**FIELD AND MAIN LINE INDUSTRIAL SALES OF NATURAL GAS**

1. Report below particulars (details) concerning sales of natural gas to industrial customers served other than from local distribution systems operated by the respondent. Classify between field sales and transmission sales and further subdivide these sales between sales subject to FERC certification and sales not requiring a FERC certificate. Include also any field and main line sales, classified as Other Sales to Public Authorities and indicate such inclusion in a footnote. Field sales means sales made from wells, from points along gathering lines in gas field or production areas or from points along transmission lines within field or production areas. Transmission sales means sales made from points along transmission lines not within gas fields or production areas.

2. Natural gas means either natural gas unmixed, or any mixture of any natural and manufactured gas. Designate with an asterisk, however, any sales of mixed gas. In a footnote state the components of mixed gas, i.e., natural and refinery gases, natural and coke oven gases, etc., and specify the approximate percentage of natural gas in the mixture.

3. Report separately sales to each field and main line industrial consumer to which sales of 50,000 Mcf or more were made during the year, grouped and totalled by State. Report other sales in total for each State, showing number of sales grouped.

4. Provide separate grand totals for each State in addition to a grand total for all field and main line industrial sales.

**FIELD AND MAIN LINE INDUSTRIAL SALES OF NATURAL GAS (Continued)**

5. Designate the entries in point of delivery, column (c), that they can be readily identified on map of the respondent's pipe line system.

6. For column (d), use the following codes to designate type of sale: Firm 1; Off peak 2; Interruptible 3; Other 4. Define by appropriate footnote, the meaning of each term in describing the type of sale, indicating specifically any order of priority in service between types of sale and among sales of the same type.

7. On each line following an entry in column (h), itemize separately the adjustment portion of the entry in column (h) (for example, purchased gas, tax, Btu or other rate adjustments). The difference between columns (g) and (h) should be the revenues resulting from the base contract rate named in the docket

number entered in column (b). Show the effect of purchased gas, tax, Btu, or other rate adjustment provision as the quotient of the total annual revenues received for the year from the application of each rate adjustment provision divided by the annual volume of gas delivered.

8. For each sale of 50,000 Mcf or more per year at each point of delivery, show (a) in column (l) the noncoincidental peak day volume of delivery at pressure base indicated, (b) in column (m) the coincidental system peak day volume of delivery at pressure base indicated and (c) in column (k) the dates of the noncoincidental peak day deliveries. In a footnote state the date of the entire system peak day coincidental delivery. If an estimate is used for any peak day delivery, state the basis for such estimate in a footnote.

**DISTRIBUTION OF SALARIES AND WAGES**

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used. When reporting detail of other accounts, enter as many rows as necessary numbered sequentially starting with 74.01, 74.02, etc.

**AUXILIARY PEAKING FACILITIES**

1. Report below auxiliary facilities of the respondent for meeting seasonal peak demands on the respondent's system, such as underground storage projects, liquefied petroleum gas installations, gas liquefaction plants, oil gas sets, etc.

2. For column (c), for underground storage projects, report the delivery capacity on February 1 of the heating season overlapping the year-end for which this report is submitted.

For other facilities, report the rated maximum daily delivery capacities.

**GAS ACCOUNT - NATURAL GAS**

1. The purpose of this page is to account for the quantity of natural gas received and delivered by the respondent taking into consideration differences in pressure bases used in measuring Mcf of natural gas received and delivered.

2. Natural gas means either natural gas unmixed or any mixture of natural and manufactured gas.

3. Enter in column (c) the Mcf as reported in the schedules indicated for the items of receipts and deliveries.

4. In a footnote report the volumes of gas from respondent's own production delivered to respondent's transmission system and included in natural gas sale.

5. If the respondent operates two or more systems which are not interconnected, submit separate pages for this purpose. Use copies of pages 520 and 521.

6. Also indicate by footnote the volumes of gas not subject to Commission regulation which did not incur FERC regulatory costs by showing (1) the local distribution volumes delivered to the local distribution-company portion of the reporting pipeline by another jurisdictional pipeline; (2) the volumes which the reporting pipeline transported or sold through its local distribution facilities, and which the reporting pipeline received through gathering facilities, distribution facilities or interstate facilities, but not through any of the intrastate portion of the reporting pipeline and, (3) the gathering line volumes which were not transported through any interstate portion of the reporting pipeline.

7. Also indicate by footnote (1) the system supply volumes of gas which are stored by the reporting pipeline during the reporting year and also reported as sales, transportation and compression volumes by the reporting pipeline during the same reporting year, (2) the system supply volumes of gas which are stored by the reporting pipeline during the reporting year and which the reporting pipeline intends to sell or transport in future reporting year, and (3) contract storage volumes.

8. Also indicate the volumes of pipeline production field sales which are included in both the company's total sales figure and the company's total transportation figure (lines 42 and 46 of page 521).

**SYSTEM MAPS**

1. Furnish 5 copies of a system map (one with each filed copy of this report) of the facilities operated by the respondent for the production, gathering, transportation, and sale of natural gas. New maps need not be furnished if no important change has occurred in the facilities operated by the respondent since the date of the maps furnished with a previous year's annual report. If, however, maps are not furnished for this reason, reference should be made in the space below to the year's annual report with which the maps were furnished.

2. Indicate the following information on the maps:

- (a) Transmission lines.
- (b) Incremental facilities.
- (c) Location of gathering areas.
- (d) Location of zones and rate areas.
- (e) Location of storage fields.
- (f) Location of natural gas fields.

- (g) Location of compressor stations.
- (h) Normal direction of gas flow (indicated by arrows).
- (i) Size of pipe.
- (j) Location of products extraction plants, stabilization plants, purification plants, recycling areas, etc.
- (k) Principal communities receiving service through the respondent's pipeline.

3. In addition, show on each map: graphic scale of the map; date of the facts the map purports to show; a legend giving all symbols and abbreviations used; designations of facilities leased to or from another company, giving name of such other company.

4. Maps not larger than 24 inches square are desired. If necessary, however, submit larger maps to show essential information. Fold the maps to a size not larger than this report. Bind the maps to the report.
