Comment\_description: Our concerns upon reading your report are as follows;

1. We have been unsuccessful in attempting to compare our rates vs. other small rural area's supplied with Hydro-power. Rates are very high and seem to be excessive.
2. We did not receive staffs report, would like to know why there were over earnings in 1999: also, if this was "TEST YEAR" how do other years compare?
3. What will be the recommendation in order for Atlanta Power to abide by the 1993 direction for them to implement and maintain better recordkeeping along with filing annual reports?
4. Why is Atlanta Power not being directed to file annual reports for 1998 and 1999. This does not send a clear message as to the responsibility that is incumbent upon Atlanta Power to follow the direction given by the Commission in 1993.5.
5. Given the Red Flags that have popped up during this review, when will the next review occur and what is the follow up procedure to insure that everything prescribed by the Commission will be accomplished by Atlanta Power?

Thank you for your time,

Jim Bivens for Alva Greene., President Greene Tree Inc.

My apologies for first report sent w/spelling errors- to dependent upon spell check.
