Please describe your comment briefly:

Yesterday with my power bill, I received a notice from Atlanta Power Co. of a pending application with the Commission seeking a huge increase in 'basic electric revenues,' including both an emergency surcharge and a rate increase. As a full-time resident of Atlanta I am amazed at the audacity of Atlanta Power Co. in seeking such a unreasonable increase since we already pay perhaps the highest rate for electricity of any locality in the continental U.S.

I am asking the Commission to host a public hearing in Atlanta to hear the concerns of its residents before acting upon the Company's request.

I also appeal to the Commission to take a practical and reasonable approach when considering any application that may result in an increase in electrical costs to the residents of Atlanta.

Thank you.
