Please describe your comment briefly:

I recently received with my current monthly bill from Atlanta Power company a notice of a request for a very large increase of the basic rate for consumer power along with a very high proposed surcharge. My wife and I are full-time retired residents of Atlanta living on a fixed income. This outrageously high request for an increase will have a catastrophic effect and hardship on many of the residents of our small community. This extremely high request is unreasonable and should be carefully considered before any increase is granted. In my response of last August, I asked for an audit by the PUC of Atlanta Power Company for the past 3 to 5 years. To date I have not been informed of any action taken regarding this issue. I would like to ask that the PUC Commission hold a public hearing in Atlanta to hear from the public and their concerns.

Thanks for your time.
