Please describe your comment briefly:

I received the Notice of Application for a general rate increase. My cabin in Atlanta is under the Schedule 3 seasonal customer rate. I am a retired widow that lives in Boise. My family and I use our cabin when we have time to get away a few times during the year. We very much appreciate having power to our cabin. But I do not believe that the Schedule 3 seasonal customer rate should be eliminated. The \$83 per month is an excessive amount to pay for weekend or part-time use. I believe the Schedule 3 seasonal customer rate should remain and the rate increased, but not to exceed \$50 per month. These are hard times for everyone, but to increase my budget by \$576 a year would cause me to reconsider keeping power to my cabin. Thank you for your consideration of my comments.
