RE: Comments regarding the Staff Recommendations in this case

As the complainant in this case, I appreciate the efforts of the PUC staff to seek a reasonable resolution to the power quality issue which I addressed back in April of 2009. I do understand the financial challenges facing the APC, but also believe that the Company has obligations to its existing customers. Since we do pay exceedingly high rates for power, it seems practical that we should expect good service and adequate power quality for our money.

I can support the recommendations of the staff IF the PUC maintains oversight of the APC following the payoff of the loan in late 2011. At that time, if no other solution to the power quality issue has been applied, I will expect the PUC to once again become involved to enforce the recommended updates to the equipment in question.

Thank you for your involvement.
