vs.)
) **AMENDED NOTICE OF**
AVISTA CORPORATION dba AVISTA) **SCHEDULING**
UTILITIES, a Washington Corporation,)
)
RESPONDENT.)

On August 30, 2005, Thompson River Co-Gen, LLC (Thompson River; TRC) filed a Complaint against Avista Corporation dba Avista Utilities (Avista; Company) with the Idaho Public Utilities Commission (Commission). TRC is a cogeneration facility located in Thompson Falls, Montana. TRC represents that it is a self-certified qualifying facility (QF) as defined by the Public Utility Regulatory Policies Act of 1978 (PURPA). TRC requests an order requiring Avista to immediately complete the purchase of TRC's energy at the published non-levelized rate for fueled projects that under normal and average design conditions generate no more than 10 aMW in any given month.

YOU ARE HEREBY NOTIFIED that on November 10, 2005, TRC filed direct testimony and exhibits in Case No. AVU-E-05-7. Pursuant to agreement of the parties the following amended schedule is adopted for further prefile of testimony:

February 27, 2006	Avista prefile direct testimony and exhibits
March 10, 2006	Commission Staff prefile direct testimony and exhibits
March 17, 2006	Thompson River/Avista prefile rebuttal and exhibits

DATED at Boise, Idaho this 24th day of February 2006.

Jean D. Jewell
Commission Secretary
