Please describe your comment briefly:

I see no reason not to approve whatever Avista may be asking for in this request, but I would request that they receive no public money. If they want to pay for the installation completely of wind, then that is fine. Wind is a great waste of resources and produces little energy compared to gas and other energy sources. Yet if Avista is foolish enough to invest in wind, then that is their right. Also, no rate increases for using wind. It is a total waste of resources.

Thanks  
Jim Hollingsworth
