Dear Sir

I'm not for Avista getting more money for the elec. the customer gets from Avista.

I can't understand why the customer pays for all the up grading of the elec. stuff then they turn around and charge so much for the elec. they make with the stuff the customer payed for. I think that should be againted the law we are getting two times. I'm a retired miner can't hardly work from working in the mines more than 40 years. We did get a cost of living for ever 3 ~~years~~ years but you let avista have inressa for there elec. that customer payed for.

Can't you have a heart and tell them no once for us seniors that are on fixed income. anyway when they say it's only going up a \$3.00 dollars that's bull it always go up more than \$6.00 or better

I thank you
Ray R. Hansen

Comment: I would like to urge the commission to not raise rates in Idaho again . I appreciate that Avista has costs. I think they are a good company with good employees. However as the news has noted Idaho has not rebounded and wages are almost the lowest in the nation. As a person on a fixed income this constant increase is hurting many of us. They claim it is for upgrades but it goes to very high wages for employees and stockholder dividends. Since we do not get a choice in which utilities we use what happens to the consumer? Please hold back this year so some of us can try to hold on. Thank you

Comment: I really feel that a rate hike is totally wrong, I work very hard to conserve energy and think that the shareholders and company executives make way to much money at my exspence. Find other ways to make money instead of continually robbing from the working class who fights everyday to make ends meet. (AVU-E-14-06)is the case number
