Comment: I am responding to a KLEW-TV article regarding a potential Roof Top Solar program in the Palouse Region of northern Idaho. Avista's commitment to exploring solar and wind resources for energy is to be applauded. The use of renewable resources will guarantee clean energy for generations to come. We must look in the future now to preserve continued cost efficient energy. I sincerely hope you will provide the Roof Top Solar program as a tracking tool and be the catalyst for more energy efficient use in Idaho. We are behind the times in energy conservation. Regards, Vikky Ross
