Comment: I am asking the commission to carefully consider giving the Utilizes another rate increase. It seems that the company never has to absorb an expense they incur but insist on passing the cost to the customer they serve? I am retired and got a one percent increase in my Social Security check which was immediately taken by the government to cover the increase in Medicare premium.

How long will it take for those board members in position to grant these requests, take pity on us the ordinary citizen and deny this request?

Thanks for listening.
