Comment: Why are we selling a US utility company to a foreign country. Even if it is Canada, it doesn't mean they have our best interests in mind.  
How is this better for the American people?  
Who benefits from this share holders?  
Sounds more like greed.

Comment: I don't believe we should be putting our electric and gas supply in the hands of a foreign government. If they decided to triple rates and/or reduce availability, what recourse would the U.S. have? I don't think the "transaction is consistent with the public interest."
