Comment: Sirs:

I question why a US utility would even be considered in a merger with a foreign entity. US utility and power companies should remain totally in US control and ownership. This Canadian company, especially, seems to be managed very poorly, and the reasoning behind the merger (to add renewable credits) does not agree with common sense. So called renewable energy sources are notoriously ineffective in power production, must be subsidized heavily and are a constant drain on the economy. Please do not let this merger go forward.

Respectfully yours,
Elizabeth Doering

Comment: I am very much against the selling of Avista to hydro one. Idaho needs to keep control of our own water and power. This is a very bad deal for us and shouldn't even be considered !
