Subject: Avista

Please do not let Avista sell its utility company to a foreign country. We do not know what that company HydroOne will do with charges in the future. As a senior citizen on a fixed income, this to me, is just another money grab by a powerful company, Greed hurts those on fixed incomes. And as for Avista continuing to give the local charities...isn't the money they give really the money earned by collecting what's due on our monthly billings? They do not give, we as rate payers give and they get the credit. Please let utilities stay in America. Do not approve this sale.

Sincerely,

Anne Albrecht
Rathdrum, Idaho
