Name of Utility Company: Avista

Comment: We have had dealings with the the Canadian Business or their Legal system, they do not treat the non residents with respect or fairness. (Timeshare).

My questions that I have are: Who started the courting process that led to the Offer to buy out Avista by Hydro One?
Second question is: Does Hydro one produce any power that is NOT Solar or Wind?
Third Question: What happens to this sale if Idaho UPC Tell them NO to the Sale, and Wasington State tells them Yes?
Avista has changed since it got involved with Enron a lot of years ago. We have been costomer's of Washinto Water Power, and Avista for 38 year.

Idaho PUC should NOT approve this sale as it is Not in the common interest of the Idaho people to have our Water power, Gas owned by a forein Country. IT is time for the Idaho PUC to stand up for those that live in Idaho...

Rathdrum Idaho, 83858

Name of Utility Company: Avista

Comment: Please deny the acquisition of Avista by Hydro One.

I do not believe any US public utility company should be owned by a foreign corporation and particularly when that foreign corporation is owned by it's government with 49.9% ownership.

I am also concerned that the Canadian government is left leaning "socialistic" and has signed on to ecological international agreements that the US has not endorsed.

This acquisition is not in the best interests of US and Idaho citizens who are avista gas or electric customers.
