**Subject:** I Object to Hydro One acquiring Avista!

I object to this sale of Avista to any foreign corporation.

There is NO evidence this is helpful to the people of Spokane .

To take on a Canadian Corporations debt and to award board members with Any money is

very bad business or show of concern for the people forced to keep Avista's services.

Thank you for any efforts for the Good of the citizens of Spokane and the United States of America.

Sincerely,  
Margo Beal

**Subject:** I Object to Hydro One acquiring Avista!

I object to Hydro One's acquisition of AVISTA!

As a resident of the State of Washington, I am actively working with the Citizens Alliance for Property Rights to protect residents from their utility being run by a Canadian entity. It is my hope that the State of Idaho shares our concerns.

For the security of our Homeland and protection of our energy sources, it is important to limit utility ownership to companies in the United States. Hydro One has not demonstrated corporate stability or interest in making US customers a priority.

Thank you for your consideration.
