RE: DISMISSAL OF POLE ATTACHMENT RATE FORMULA CASE, CASE NO. GNR-E-02-2

The Commission established this case to obtain information from interested parties regarding determination of a formula for the Commission to resolve future pole attachment rate disputes. The Commission opened this case after Idaho Power and Cable One filed a pole attachment case with the Commission, and subsequently requested a broader proceeding to allow other parties to participate. Subsequent to that, Idaho Power and Cable One resolved their pole attachment dispute and the Commission dismissed the Idaho Power/Cable One case. Staff thereafter notified the parties in the broader proceeding, Case No. GNR-E-02-2, that Staff would ask the Commission to close the case because there did not seem to be interest in proceeding with the broader case. The only comments received from the parties supported closure of Case No. GNR-E-02-2.

Staff recommends the Commission issue a Minute Order closing Case No. GNR-E-02-2.

Commission Decision

Should the Commission issue a Minute Order to close the case to determine a pole attachment rate formula, Case No. GNR-E-02-2?
