Please describe your comment briefly:

I am againgst all increases in rates especially increases for mothballing natural gas plants. Next to hydro Nat gas should be very cheap and I don't know why the company is not running these plants. I know Idacorp and Idaho power have a mini enron scheme happening with other power suppliers and I am really suprised that its legal. I am using less power but my costs have gone up by 30 percent in the last 4 years.
