RE: CASE NOS. GNR-E-11-04

IN THE MATTER OF THE ADJUSTMENT OF AVOIDED COST RATES FOR NEW PURPA CONTRACTS FOR AVISTA CORPORATION DBA AVISTA UTILITIES, FOR IDAHO POWER COMPANY AND FOR PACIFICORP DBA ROCKY MOUNTAIN POWER.

We have reviewed the information you have provided in your letter dated August 16, 2011, notifying Idaho Power of the Northwest Power and Conservation Council (Council) revised natural gas forecast dated August 10th, 2011 and the resulting change of the avoided costs to be paid to PURPA projects.

Idaho Power concurs that the use of the Council's revised natural gas forecast and the calculations used by the IPUC staff for Idaho Power Company are consistent with IPUC Order 29124.

Sincerely,

Randy C Allphin
Senior Energy Contracts Coordinator
