---

On January 18, 2001, Idaho Power Company ("Idaho Power") filed an Application with the Idaho Public Utilities Commission ("Commission") requesting that it issue an order which would approve the Statement of Policy and Code of Conduct addressing transactions between Idaho Power and its affiliate IDACORP Energy Solutions LP ("IES"), Attachment "A" to Application; and convene a prehearing conference to establish the procedure for consideration of whether other Statements of Policy and Codes of Conduct covering transactions between Idaho Power, its utility customers, and other subsidiaries of Idaho Power's parent company, IDACORP, Inc. should be adopted.

Idaho Power contends these two separate Statements of Policy and Codes of Conduct are very different because with the latter situation IDACORP subsidiaries only provide non-power, non-utility products and services to Idaho Power unlike transactions which occur between Idaho Power and IES. Because of this difference Idaho Power requests that the Commission bifurcate this case to separately consider the Statement of Policy and Code of Conduct relating to the Idaho Power/IES Agreement and the Statement of Policy and Code of Conduct to be applicable to such other affiliates engaged in non-utility, non-power transactions with Idaho Power.

Staff agreed with the Company that these matters should be considered separately. Therefore, Staff recommended that only the Statement of Policy and Code of Conduct relating to the Idaho Power/IES Agreement should be considered in this case, IPC-E-01-2, and the Statement of Policy and Code of Conduct to be applicable to such other affiliates engaged in non-utility, non-power transactions with Idaho Power should be assigned a new case number.

**COMMISSION FINDING**

Based upon the Application and Staff's recommendation this case will be split into two separate proceedings. Under Case No. IPC-E-01-2, the Commission will consider the Statement of Policy and Code of Conduct between Idaho Power and IES. Under the new case number, IPC-E-01-8, the Commission will consider the Code of Conduct to be applicable to such other IDACORP affiliates who are engaged in non-utility, non-power transactions with Idaho Power.

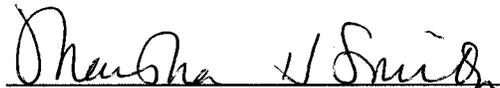

**ORDER**

IT IS HEREBY ORDERED that the Commission will consider the Statement of Policy and Code of Conduct between Idaho Power and IES under Case No. IPC-E-01-2.

IT IS FURTHER ORDERED that the Commission will consider the Statement of Policy and Code of Conduct to be applicable to such other IDACORP affiliates who are engaged in non-utility, non-power transactions with Idaho Power in Case No. IPC-E-01-8.

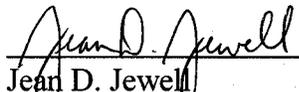

DONE by Order of the Idaho Public Utilities Commission at Boise, Idaho this <sup>March</sup> 2nd day of ~~February~~ 2001.
