This comment in Case No. IPC-E-02-13 was received in January as a "complaint" - but really is a comment. In any event, I don't believe it was forwarded to you. - Lisa

Complaint Company: Idaho Power
Contacted utility: No

Complaint description: This is a comment relative to the proposal to implement a two year pilot to temporarily control air conditioning in 500 volunteer residential consumers.

I lived in NC for 14 years where Carolina Power and Light Co. had a program such as the one being proposed. We had the equipment attached and found it almost unnoticable. The monthly credit to our power bill was worth whatever inconvenience the irregularity of air conditioning may have caused.
