Re: Compact Disk Containing Copies of the
Company's Application, Testimony and Exhibits
in Case No. IPC-E-03-13

Dear Lisa:

On October 28, 2003, you requested that Idaho Power provide the Commission with a short letter: (1) certifying that the copy of the rate case filing contained in the compact disk provided by the Company is identical to the paper copy filed with the Commission, and (2) stating that the parties and the public may rely on the compact disk.

In responding to your request, the Company must first emphasize that the Application, Testimony, Exhibits and other documents filed with the Commission are the official filing of the Company. The traditional practice has been to provide paper copies of the filing to parties, and upon request Idaho Power is certainly willing to do that. RP 231.05 also requires that a copy of pre-filed testimony be provided in computer-readable form. The Company complied by filing the CD containing a copy of the entire filing.

Idaho Power is willing to provide copies of the filing in the CD medium as a courtesy and because some persons or parties may prefer that medium. It should be acknowledged that the process of copying documents into a CD or other digital medium can occasionally cause minor formatting and other "glitches." That being said, to the best of Idaho Power's knowledge and belief, the materials copied onto the CD medium and provided to the Commission are a true and correct copy of the filing made by the Company in the above-referenced case.

Very truly yours,

Barton L. Kline
