Comment_description: Thank you PUC For looking after the little guy. And shame on Idaho Power management & board of directors. Pay for your own Arid Club dues. What a rip off. They don't seem to care about anyone them selfs. I am 68 & single , on fixed income. Getting harder to make ends meet. 2.5 per cent , yes but not 17.7 per cent on residential.

Makes me think Idaho Power hasn't been managed very well. So, no pay incentives and cancel the Arid Club memebership. Top management makes enough to pay there own way. It looks like Idaho Power needs to do some expense cutting, starting at the top. This really steams me!

To the PUC, I trust you to do the right thing. God help Idaho Power management and PUC to do right thing in this matter. Regards, Don

Comment_description: The customer service charge Idaho power is wanting is way out of line the \$2.50 there already getting is way to much and should be lowered, after all I don't charge them for my services to pay them for there high energy bills they send me, or the water they use that belongs to the people to run there hydro electric plants.

Comment_description: I agree with the PUC that Idaho Power should not get the ridiculous increase in rates that they are suggesting. This just goes to show everyone how greedy Idaho power and other utilities are. I still think there should be an investigation into price gouging by utility companies in the state of Idaho.

Comment_description: The ARROGANCE!!!!!! A legislated MONOPOLY wanting the ratepayer to pay club and professional dues. These are voluntary costs of doing business not necessities for the benefit of the public. The ratepayer also petitioned to pay for corporate missteps in both energy trading and pension investment! What NERVE!!! Everyone in business has to grow their company internally while this management spends any way it wishes and then petitions the PUC which 'walks in lock-step' with management and always OK's the requests as necessary. This PUC better get with it and start acting in the public's interest, not errant management's. Get some BACKBONE!

Comment_description: We do not need our rates increased again. How can Idaho power say that they need this increase when they have so many new customers every year. The only reason they want an increase is because they can, there is no competition for them. They control how much we pay them because we have to use Idaho power. Let's get reasonable here and not allow this increase.

Comment_description: i want to applaude you for your current decision concerning the requested increase idaho power requested. I realize they have expanded and replaced resources. However, what company doesn't have to do this ? Private enterprise puts a percentage away or borrows money to do this. If they were to raise their prices above what is usually regulated by inflation they would not be in business long. Just because they are nearly a total monopoly here does not justify bad business management.
