Company: Idaho power
mailing_list_yes_no: yes
Comment_description: The way I understand it is that Idaho Power wants the Customers to pay there income taxes for them on profits they recieve, boy do I want in on this, how do I go about having the government pay my Income taxes for me on my skimpy wages. Idaho power to me is getting very greedy, as I understand it they got back a refund from the IRS for 40 million dollars that we paid to Idaho power but they only want to reimburse us 19 million of that, what is wrong with this picture, Idaho power has been price gouging us for years and getting away with it, it is time the PUC said no more and deny anymore price increases of any kind for three years and then look at there situation and if a small increase is needed the grant it, but right now I would like all the money they have gouged all there customers for reimbursed over the next year.

Alvin Day

Complaint_description: Idaho Powerv keeps asking you for more rate increases and other fees. I have to say that my family does not make as much money as 2 years ago. We are down about 1/3 from 2 years ago. And a lot of people that I know are in the same boat. So, I womnder how Idaho Power and the other utilities think we can keep paying these higher fees. Thank you Robert Martin
