4.

The consolidated complaints in this proceeding challenge certain practices with respect to utility purchases from qualifying facilities ("QFs") in Idaho. As an electric utility with a legal obligation to purchase power from Idaho QFs, PacifiCorp has a direct and substantial interest in the outcome of this proceeding. One of the issues in this proceeding is whether the 10 MW ceiling for standard purchase rates should be interpreted on an average-megawatt basis with

respect to energy delivered rather than on a capacity basis. PacifiCorp participated in the proceeding that resulting in the 10 MW ceiling being adopted and must comply with that ceiling with respect to its standard QF purchases. Therefore, it has a direct and substantial interest in how the issue is resolved. As a potential purchaser from QFs, PacifiCorp now or in the future may be affected by the Commission's decisions on certain of the other practices that are at issue in this proceeding; therefore, it also has a direct and substantial interest with respect to those practices.

5.

PacifiCorp's participation in this proceeding will assist the Commission in resolving the issues before it and will not unreasonably broaden the issues, burden the record or delay the proceedings. No other party can adequately represent PacifiCorp's interests in this proceeding.

6.

PacifiCorp will accept the procedural schedule set forth in Order No. 29517 issued by the Commission on June 8, 2004. PacifiCorp intends to file direct testimony as an intervenor on or before the August 5, 2004 deadline for intervenor testimony.

WHEREFORE, PacifiCorp respectfully requests that the Commission grant this petition to intervene.

DATED: July 6, 2004.
