Comment_description: Am alarmed to hear that in order to save costs, you are not going to bury the the major transmission lines that you are putting in down to Donnelly & Tamarack.

This is a grievous situation. Already along Route 55, Recently deemed a national scenic byway, you have built several rusted monsters. Why couldn't you even have put these underground?

People are moving to McCall, Valley County, and Idaho now, who have come here for the beauty and to pay a little more is worth it in costs... lines should be underground and not above ground!

We will be forwarding this to our neighbors as well for them to protest.

Kristi Pedersen
