Comment_description: I wish to file an objection to the request by Idaho Power to increase from \$.55 to \$.85 and further increase this amount to each Idaho Power user to \$1.36 per month to support their "energy efficiency efforts"

This entire matter amounts to the customers of Idaho Power paying for their expenses to promote Idaho users to conserve energy only to have Idaho Power sell the saved energy out of State at an increased profit level.

Is it too much to ask for the Idaho PUC to just once tell Idaho Power to back off? All of us are getting sick and tired of their "end runs" to get hold of more of our money and the PUC going along with their game plans..... A.C. Likes, Glenns Ferry

Comment description: Once again, Idaho Power attempts to overcharge its captive customers by asking for yet another raise of charges, this time its energy efficiency fee, asking for a rise from 30 cents to 85 cents/mo. Please review their financial paperwork carefully and, if legitimate, only permit the minimum raising of this fee, preferably 5 cents. It's outrageous that they continue to request increase after increase and especially on such an extreme scale!
