Comment_description: Re: IDAHO POWER's last December (2004) application with IPUC requesting an increase in the Conservation Program Funding Charge

Dear Sirs/IPUC:

My family strongly OPPOSE any increase in Idaho Power's charge for Conservation Programs.

We believe the only "programs" that Idaho Power should be pursuing are (1) a program of capital investment to increase power generating capacity in Idaho through clean methods, such as WIND POWER, SOLAR, LOCAL ALCOHOL, and GEOTHERMAL power generation, that do not involve foreign oil; and (2) a continuing and far-reaching program to REDUCE administrative costs, overhead costs, and upper-level administrative salaries/benefits costs for Idaho consumers.

Thank you very much for your excellence in oversight of this industry, and your continued protection of the interests of Idaho citizens and consumers.

Best regards,
Jim Cain & family
Meridian, Idaho
