Comment\_description: There is a flyer in the power bill stating IPC is requesting an increase in the Conservation Funding Charge and I can't find the case file. I despise being forced, without choice, to pay all the add-ons on all the utility bills. If IPC thinks it is such a good program then they should be willing pay for atleast 1/2 of the cost out of their gross income. My power bills run about \$1000 per/mo and an additional 2.4% (\$24.00) is way too much. Everybody should pay for their own equipment upgrades.
