01 July 2005

Idaho Public Utilities Commission
472 W. Washington Street
P.O. Box 83720
Boise, Idaho 83720-0074

Attention: Commission Secretary

Subject: Request Execution of Wind Power Contracts with Idaho Power Company
Case No. IPC-E-05-22 IPC Petition to Temporarily Suspend Wind QF Contracts

Dear Secretary:

For the past several months, we have been working with the Idaho Power Company ("IPC") to negotiate and execute two QF power contracts, involving the 18 MW Alkali wind project (FERC QF 05-53) and the 18 MW Black Mesa wind project (FERC QF 05-54), both located near Glens Ferry, Idaho (collectively, the "Projects").

On June 14, 2004, our completed QF power contracts for the Projects were submitted via e-mail to Mr. Randy Allphin at IPC "ready to sign". However, on June 17, 2004, IPC filed its petition to suspend wind power QF contracts.

Therefore, since our contracts were ready to be signed PRIOR to the petition filed by IPC, we request that the Idaho Public Utilities Commission authorize IPC to execute our QF power contracts for the Projects under the existing Idaho published avoided cost rates.

Thank you for your time and consideration.

Please contact us if you have any questions.

Sincerely,

Pacific Winds LLC

Rick Koebbe
President

cc: Mr. Randy Allphin, Idaho Power Company
Mr. Barton Kline, Idaho Power Company
Mr. Rick Sterling, IPUC
