Company: Idaho Power and Avista
mailing_list_yes_no: yes

Comment_description: PLEASE PLEASE PLEASE do not change the requirement to buy power from small wind generators... stop wasting time... it is a federal requirement and they are in the wrong court... if they have an issue with it they need to go to the federal courts and change the laws... THE LAW IS THE LAW, no exceptions...

Just reject it...

Also, if they need to raise rates (HOW MUCH PROFIT IS ENOUGH???) then they raise rates to cover it, They need to get in the mode of "renewable energy" (Solar, Wind, Geothermal)... the Reservoirs will silt up eventually, the dams will corrode eventually... we need progress towards the next phase of power generation...
