Comment_description: Regarding the settlement money of 77 million it should be given back to the rate payers in a reduction on our power bills until the money is all used up.

Comment_description: we like many citizens that dont have a voice no matter what your supposed to think are tired of the rising costs in the state we are native to for generations. the local natives are being squeezed out of any chance of financial stability by out of state interests, losing insurance, cost of living increases, bonus capability all the while for some reason it is ok to keep raising utilities who are recording bigger profits, and increasing their own compensation. IN SOME WAY GIVE IT BACK TO THE PEOPLE!!!
