chisholm3@mindspring.com

Air is a public resource, shared in common by not only all people, but all life, therefore it is my belief that benefits of cleaning up the air, should be shared by all for the common good. It is also important that this money, in this case \$77 million should be invested in improvements to the common good, not merely spent on existing problems.

I would ask the PUC to do just that, to invest this money in solutions. The money should be split among Idaho Power investors to encourage more investment in cleaning up the companies coal plants, a portion of the money should go to energy efficiency, conservation programs, and renewables in the form of grants to ratepayers in residential, commercial, industrial and agriculture. Money should also be allocated to an "energy education program" in the schools that would incorporate efficiency, conservation, renewables and education. An example of such a program is the Castleford Solar for Schools project, where energy efficiency and a net metered solar installation created a 4.3KW project that also includes classroom benefits.

My suggestion is that 10% of the money go to Idaho Power investors, 10% to the energy education project and the remaining 80% be split among the four rate groups. These allocations could be managed through the Energy Division of the Idaho Department of Water Resources, which has similar programs already in existence.

Please make these comments part of the public record in this manner.

Sincerely yours,
Bill Chisholm

Comment_description: What to do with \$77 million in proceeds form sales of emissions allowances. 1) How does a company with majority of its energy base in hydro electricity get so many sulfure dioxide allowances?

Use the 77 mil for BSU research grants (long term), and to build a considerable large scale P.V. + wind energy site S.W. of boise in the desert. Similar to what PBR is doing in Clark county NV in affiliation with SunEdison.

Thanks,
Orn Jonsson.

INDIANA UTILITIES
COMMISSION

I WAS UNDER THE IMPRESSION THAT
THE PUC - DOT, ETC, WAS FORMED TO
CONTROL COMPANIES LIKE MAHO DOWER
FROM OVERLOADING THEIR WAGONS AND TO
PROTECT & LOOK OUT FOR THE BEST INTEREST
OF THE PUBLIC.

I BELIEVE THE PUC HAVE FULL
SAY IN THE MATTER OF THE DISTRIBUTION
OF SAID \$77 MILLION PERIOD

AND PRAY THAT THEY MAKE THE
RIGHT DECISION
