Comment_description: I would like to express my concern over Idaho Power's recent request for another rate increase. I do not believe that this company should be granted another rate hike. Continually passing the buck onto the hard-working people of this state has got to stop. I recently discontinued several "luxuries" like satellite TV and re-connected my telephone with a less expensive company to save a money. My husband works three jobs to make ends meet, although his "regular" job, places us in the "middle class". What little extra we have managed to bring in is quickly being eaten up by another recent utility rate hike although my thermostat has gone down. Now Idaho Power is asking you to hit my pocket book again. Please vote against this rate hike and force Idaho Power to get creative. Don't feed into their idea that charging their customers more is always the answer.
