) **ORDER NO. 29907**

On October 19, 2005, Idaho Power Company (Idaho Power; Company) filed an Application with the Idaho Public Utilities Commission (Commission) requesting approval of a Firm Energy Sales Agreement (Agreement) between Idaho Power and G2 Energy Hidden Hollow LLC (G2) dated October 11, 2005.

NOTICE OF APPLICATION

Under the Agreement, G2 will sell and Idaho Power will purchase electric energy generated by the Hidden Hollow Landfill Gas Project, located near Boise, Idaho. The nameplate rating of the landfill gas facility is 3.2 MW. Under normal and/or average conditions, the project will not exceed 10 aMW on a monthly basis.

As represented, G2 will be a qualified small power production facility (QF) under the applicable provisions of the Public Utility Regulatory Policies Act of 1978 (PURPA). Idaho Power contends that the Agreement comports with the terms and conditions of Commission Order No. 29632 (*U.S. Geothermal et al v. Idaho Power*) and avoided cost Order No. 29646. The Agreement is for a 20-year term and contains the published non-levelized avoided cost rates set forth in Order No. 29646. G2 has selected March 1, 2006 as the scheduled Operation Date for this facility.

Section 24 of the Agreement provides that the Agreement will not become effective until the Commission has approved all the Agreement's terms and conditions and declared that all payments that Idaho Power makes to G2 for purchases of energy will be allowed as prudently incurred expenses for ratemaking purposes.
