Comment_description: Reference an Article in Times News on 10 NOV 05 concerning a ruling on whether to allow wind generator farms to proceed in south and southeasst Idaho. I think it vitally important that alternative sources of electriciy are pursued. Magic Valley is facing a potentially harmful coal fired plant being built over our life giving aquifer near Jerome. Wind is a better alternative. I support allowing the wind farms to be built.
Thank you. Ed Smith

Comment_description: Regarding the four Exergy wind parks Idaho Power is seeking contracts with: It's a good deal, please approve them and encourage IP to develop more wind power!
