Re: Cassia Wind Park LLC, Cassia Wind Farm LLC, Case No. IPC-05-35

Dear Ms. Jewell:

Pursuant to the requirements of Commission Order No. 29954, this is to advise that John Deere Credit (JDC) has completed its due diligence review of the Cassia Wind proposed wind turbine projects.

Based on that review JDC has issued its commitment to supply the necessary wind turbines and financing to the projects, with construction to start in early summer 2006.

JDC would appreciate receiving from the Commission a confirmation that this letter is sufficient to satisfy the contingency in Order No. 29954 and that the Cassia Wind projects are exempt from the rate eligibility cap of Order No. 29839.

Very Truly Yours

Sincerely,

JOHN DEERE CREDIT
