Case: IPC-E-05-35
Name: Rep. Dell Raybould
Street Address: 3215 N 2000 W
City: Rexburg
State: Idaho
ZIP: 83440
Home Telephone: 208 356-6837
E-Mail: drayboul@house.idaho.gov
Company: Idaho Power Company
mailing_list_yes_no: yes

Comment_description: There are a number of small projects under development by farmers that need quick action on this case. If they cannot get approval soon they will lose financing and the availability of generators. They have been waiting for approval for some time and they need answers. Cassia Gulch Wind Park and Cassia Wind Farm are two of these projects that shouldn't be delayed any longer. Thank you for allowing me to comment on this case. Rep. Dell Raybould

Company: Idaho Power Co.
Comment_description: As power rates rise, seem logical that we should be looking for as much power production as possible, (supply & demand). With no new hydro- electric plants in the near future and fuel prices so unstable. Seems to me that clean wind farms are a viable untapped resource than Idaho needs to utilize. Projects like Cassia Gulch Wind Park & Cassia Wind Farm need to get in production ASAP. Thank you
