E-Mail: dmbradshaw2@cableone.net
Company: Idaho Power Company

Comment_description: The Cassia Gulch Wind Park and Wassia Wind Farm have been compiling data and actively working on getting these projects up and running for a long time. I support the use of wind to produce energy. This alternative clean source of energy is favorable to the environment and helps to reduce our dependence on fossil fuels domestically and internationally. This project is particularly favorable because it is locally owned by the farmers within the area and not big developers from out-of-state energy companies. I would recommend immediate approval.
