Re: Case No. IPC-E-06-10
Cassia Wind Farm Firm Energy Sales Agreement – 20-Year Pricing
Schedule Update

Dear Ms. Jewell:

On April 20, 2006, in Case No. IPC-E-06-10, Idaho Power Company (“Idaho Power”) filed an Application with the Idaho Public Utilities Commission (“Commission”) for approval of the Firm Energy Sales Agreement (“Agreement”) between Idaho Power and Cassia Wind Farm, LLC (“Cassia Wind”) under which Idaho Power will purchase electric energy generated by Cassia Wind. The Commission approved the Agreement on June 30, 2006, in Order No. 30086.

Idaho Power was notified by Cassia Wind that the 20-year pricing schedule contained within the Agreement did not extend through the full term of the Agreement (2029) due to a 27-month delay of the scheduled Operation Date. Idaho Power has sent the enclosed letter to Cassia Wind for its records.

To ensure this is properly documented and to prevent any potential confusion, Idaho Power seeks to include this letter and its letter containing pricing schedule updates for Cassia Wind with the original Agreement. Therefore, enclosed for filing are an original and seven (7) copies of the aforementioned letters.

Please contact me if you have any comments, questions, or concerns.

Sincerely,

Julia A. Hilton

Subject: Cassia Wind Farm - Project Number - 31318100

Dear Richard,

Recently you contacted Idaho Power regarding your discovery that the pricing schedules contained in Article VII of the Firm Energy Sales Agreements (Agreement) between Cassia Wind Farm, LLC and Idaho Power Company dated 04/07/2006 do not extend through the full 20 year term of the Agreement.

The pricing within this Agreement contains the standard published avoided cost rates in accordance with Idaho Public Utilities Commission (IPUC) order 29646 which was in effect at the time this Agreement was executed. The Agreement does contain 20 years of pricing, however due to the actual Operation Date of 3/24/2009 the full 20 year term of the Agreement extends to March 2029. Review of IPUC Order 29646 provides pricing for 2028 and 2029 as follows:

Article VII: PURCHASE PRICE AND METHOD OF PAYMENT

7.1 Base Energy Purchase Price:

<u>Year</u>	Season 1 - (73.50 %)	Season 2 - (120.00 %)	Season 3 - (100.00 %)
	<u>Mills/kWh</u>	<u>Mills/kWh</u>	<u>Mills/kWh</u>
2028	62.50	102.04	85.04
2029	63.94	104.40	87.00

Idaho Power will file this information with the IPUC and ask that it be included with the original agreement. However, if the IPUC determines that additional information or specific IPUC approval of this information is required such prices shall not be effective until such Commission approval is obtained.

If you have any questions please do not hesitate to contact me.

Sincerely,

Jill Glenn
