BETWEEN IDAHO POWER COMPANY) PROCEDURE
AND CASSIA WIND FARM, LLC)
) ORDER NO. 30060

On April 20, 2006, Idaho Power Company (“Idaho Power” or “Company”) filed an Application with the Idaho Public Utilities Commission (“Commission”) requesting approval of a Firm Energy Sales Agreement (the “Agreement”) between Idaho Power and Cassia Wind Farm, LLC (“Cassia Wind”) dated April 7, 2006.

NOTICE OF APPLICATION

Cassia Wind proposes to design, construct, install, own, operate and maintain a 10.5 MW wind generating facility. Under the Agreement, Cassia Wind would sell and Idaho Power would purchase electric energy generated by Cassia Wind’s wind turbines located near Hagerman, Idaho. Under normal and/or average conditions, the project will not exceed 10 aMW on a monthly basis.

As represented, the Cassia Wind facility will be a qualified small power production facility (“QF”) under the applicable provisions of the Public Utility Regulatory Policies Act of 1978 (“PURPA”). Idaho Power contends that the Agreement comports with the terms and conditions of Commission Order No. 29632 (*U.S. Geothermal et al v. Idaho Power*) and avoided cost Order No. 29646. The Agreement is for a 20-year term and contains the published non-levelized avoided cost rates set forth in Order No. 29646. Cassia Wind has selected December 31, 2006 as the scheduled operation date for this facility.

Section 24 of the Agreement provides that the Agreement will not become effective until the Commission has approved all the Agreement’s terms and conditions and declared that all payments that Idaho Power makes to Cassia Wind for purchases of energy will be allowed as prudently incurred expenses for ratemaking purposes.
