Subject: PUC Comment/Inquiry Form

A Comment from Donald H. Angell follows:

Case Number: IPC-E-06-21
Name: Donald H. Angell
Address: 5883 S Schooner Pl
City: Boise
State: ID
Zip: 83716
Home Telephone: 208 426 9828
Contact E-Mail: dhangell@mindspring.com
Name of Utility Company: Idaho Power
Add to Mailing List: yes

Please describe your question or comment briefly:

I am concerned with the request that the commission allow QFs, specifically the Cassia Gulch Wind project, to connect to the IPC transmission grid without paying for transmission grid upgrades required for the interconnection. I totally support the development of QF generation but there must be a limit as to where the generation is located with respect to transmission grid capacity. I would look to the commission to develop a cost/benefit policy for evaluation of QFs transmission upgrades that fairly allocates the cost of transmission upgrades between the QF and the rate payers. There should be no special "deals" made on transmission upgrades for individual QFs.
