Please describe your question or comment briefly:

I am a resident living in the Spring Creek subdivision located directly above the Shadow Valley Golf Course. I am very disillusioned with the amount of new 'planned communities' and subdivisions which are currently being planned. One of which is Avimor. My family andghbors will be SURROUNDED! I am disgusted by the amount of greed that these out of state developers, such as Suncor, are exhibiting as well as their apparent lack of consideration for anything except the almighty dollar.

I do not believe for one second that Idaho Power will truly be the ones who repay the 4.3 million dollars which Suncor will front to you to buid a substation in that area. I know as an Idaho Power customer I and my neighbors will be the ones footing the bill.

I am sick that as a public utitlity that your organization also will be participating in a project which will not only rape our foothills of their natural beauty, but will rob your consumers of their hard earned buck in the form of repaying that 4.3 million. I would have thought better of a company that I would have hoped would have held your fellow Idahoans and their beautiful state in higher esteem.

I sincerely hope Idaho Power would reconsider its decision to participate in such ill planned endeavor.

Sincerely, Melissa Young

Please describe your question or comment briefly:

I strongly oppose the agreement between Idaho Power and Avimor (Suncorp) for the new substation. Once again, the cost of these developments is falling on the shoulders of the people of Idaho. Eliminate the 'pay back' portion of the agreement and make the developer recover the costs through the development itself. It is time to make the developers start to pay the high costs of these projects and not have it turn into yet another future tax or fee for the rest of us.
