Please describe your question or comment briefly:

Commissioners, I am commententing once again to ask you to deny the above. Boise is growing at a rate more than it can handle, please reject this. The taxpayers in this area are already bearing much of this cost, but where is the developers paying the majority of this? Please consider the overall effect of what is already becoming an overbearing strain to this community. WE should hold developers accountable for growth, especailly if it is not well thought of in this case, and as in many others. Thanks for your time and please consider the long term impact of these and many other developments!!
