Name of Utility Company: Idaho Power  
Add to Mailing List:

Please describe your question or comment briefly:

I am commenting on Idaho Power's IRP. My husband and myself are against Idaho Power planning to add nuclear energy and coal plants for future energy needs. Instead the company should be focusing on wind, solar, geothermal, and biomass energy sources.

Please submit these sentiments in response to the IRP,  
case no. IPC-E-06-24

Sincerely, Ginna Lagergren

Please describe your question or comment briefly:  
Idaho is a great state to live in. Let's keep Idaho a great state by NOT using nuclear or coal for power. I and other Idahoans want wind, solar, geothermal, and biomass sources of power. In addition, I and other Idahoans do not want to pay the enormous cost of the nuclear and coal power plants proposed by Idaho Power. STOP THIS DIRECTION OF USING SOURCES OF POWER THAT ARE EXPENSIVE AND HARMFUL TO OUR HEALTH AND WELLBEING, PLEASE.

Please describe your question or comment briefly:

To whom it may concern,

As a long term Idaho resident, raising a child in this beautiful state, I oppose the use of coal and nuclear energy as sources of energy for Idahoans. Rather I believe that Idaho Power should develop wind, solar and geothermal energy as they are cleaner and renewable as well as very effective.

Thank you for your time,  
Sheila Plowman

Please describe your question or comment briefly:  
Dear Idaho Public Utilities Commission,

My name is Luca. I am 12 years old. I strongly disagree with your proposal to put a nuclear power plant at the INEL. There is an extremely good chance that it will hurt the health of people and wildlife in that area.

Thank you for your time,  
Luca Del Signore
