

IPC-E-06-25

To: Idaho Public Utilities Commission

January 12, 2007

I am writing to petition for reconsideration. The commission has found it is a substantial undertaking to remove the line; however once the power company has cut the conductor, I fail to see how my removal and salvage can impact safety, liability, and system reliability.

The company has provided detailed costs, and it may be possible to separate the cost of de-energizing, and cutting the conductor.

Thank you very much in your consideration in this matter, if this format is not acceptable, please let me know. And at least give me some more time.

  
Sincerely, Reid G Stewart
