Re: Case No. IPC-E-06-31
In the Matter of the Application of Idaho Power Company for an Accounting Order Authorizing the Inclusion of Power Supply Expenses Associated With the Purchase of Capacity and Energy From Telocaset Wind Power Partners, LLC in the Company's Power Cost Adjustment

Dear Ms. Jewell:

Please find enclosed for filing an original and seven (7) copies of 6 different Certificates of Attorney (Confidentiality of Certain Third Party Information) in the above-referenced matter.

I would appreciate it if you would return a stamped copy of this transmittal letter to me in the enclosed self-addressed stamped envelope.

Very truly yours,

Monica B. Moen

UTILITIES COMMISSION

I, the undersigned attorney, in accordance with Idaho Public Utilities Commission Rule of Procedure 067, certify that the information sought in Request for Production No. 27 in the "First Production Request of the Commission Staff" in the above-referenced case is protected from public disclosure on the following basis and that the following information is true:

1. In conformance with Federal Energy Regulatory Commission ("FERC") Order 2003 (July 24, 2003) and Order 2003-A (March 5, 2004), Idaho Power Company ("Idaho Power" or the "Company") has adopted FERC's Large Generator Interconnection Procedures ("LGIP") and Large Generator Interconnection Agreements ("LGIA") and has posted the LGIP and the LGIA on the Company's OASIS.

2. The LGIP are found in Appendix B to FERC Order 2003-A. The LGIA is Appendix 6 to the LGIP.

3. Telocaset Wind Power Partners, LLC ("Telocaset") has requested that Idaho Power enter into an LGIA for Telocaset's proposal that was submitted in response to the Company's 2005 Request for Proposals for Wind-Powered Generation ("2005 Wind RFP"). Idaho Power and Telocaset have not completed negotiations of Telocaset's LGIA.

4. Section 13.1 of the LGIP states that "Confidential Information shall include, without limitation, all information relating to a Party's technology, research and development, business affairs, and pricing and *any information provided by either of the Parties to the other prior to execution of an LGIA.*" (Emphasis added).

5. Pursuant to Section 13.1 of the LGIP, because Idaho Power and Telocaset have not completed negotiations of Telocaset's LGIA and the Telocaset LGIA remains unexecuted by the parties, any information concerning Telocaset's LGIA, including any estimates of the timing, frequency and duration of transmission curtailments, if any, is protected by the terms and conditions of FERC's LGIP.

6. Idaho Code Section 9-340A sets forth that any public record exempt from disclosure by federal or state law or federal regulations to the extent specifically provided for by such law or regulation is exempt from disclosure.

7. As of the date of this Certificate, Idaho Power represents that the information concerning the unexecuted Telocaset LGIA is confidential as defined in Section 13.1 of the LGIP (Appendix B to FERC Order No. 2003-A) and, therefore, pursuant to Idaho Code Section 9-340A is exempt from disclosure.

DATED this 15th day of February 2007.

IDAHO PUBLIC
UTILITIES COMMISSION

I, the undersigned attorney, in accordance with Idaho Public Utilities Commission Rule of Procedure 067, certify that the information sought in Request for Production No. 22 in the "First Production Request of the Commission Staff" in the above-referenced case is protected from public disclosure on the following basis and that the following information is true:

1. In conformance with Federal Energy Regulatory Commission ("FERC") Order 2003 (July 24, 2003) and Order 2003-A (March 5, 2004), Idaho Power Company ("Idaho Power" or the "Company") has adopted FERC's Large Generator Interconnection Procedures ("LGIP") and Large Generator Interconnection Agreements ("LGIA") and has posted the LGIP and the LGIA on the Company's OASIS.

2. The LGIP are found in Appendix B to FERC Order 2003-A. The LGIA is Appendix 6 to the LGIP.

3. In conjunction with its 2005 Request for Proposals for Renewable Wind-Powered Generation ("2005 Wind RFP"), Idaho Power short-listed certain proposals and requested that, pursuant to Section 6 of the LGIP, each entity who submitted a short-listed proposal request that the Company conduct an Interconnection Feasibility Study ("Feasibility Study"). Each entity submitted a request for a Feasibility Study for its short-listed proposal. The Company completed those Feasibility Studies pursuant to the requests.

4. The Feasibility Study, as defined by the LGIA, preliminarily evaluates the system impact and cost of connecting the proposed generating facility to a utility's transmission system and is one component that assists the parties in negotiating an LGIA.

5. Section 13.1 of the LGIP states that "Confidential Information shall include, without limitation, all information relating to a Party's technology, research and development, business affairs, and pricing and *any information provided by either of the Parties to the other prior to execution of an LGIA.*" (Emphasis added).

6. Idaho Power has not executed an LGIA with any of the short-listed entities who have requested that a Feasibility Study be conducted on their behalf. Pursuant to Section 13.1 of the LGIP, the information contained in each short-listed proposal's Feasibility Study, including estimates of interconnection costs, is protected by the terms and conditions of FERC's LGIP.

7. Idaho Code Section 9-340A sets forth that any public record exempt from disclosure by federal or state law or federal regulations to the extent specifically provided for by such law or regulation is exempt from disclosure.

8. As of the date of this Certificate, Idaho Power represents that the information contained in the Feasibility Studies for the short-listed proposals who responded to the Company's 2005 Wind RFP are confidential as defined in Section 13.1 of the LGIP (Appendix B to FERC Order No. 2003-A) and, therefore, pursuant to Idaho Code Section 9-340A are exempt from disclosure.

IPC-E-06-31

I, the undersigned attorney, in accordance with Idaho Public Utilities Commission Rule of Procedure 067, certify that the information sought in Request for Production No. 21 in the "First Production Request of the Commission Staff" in the above-referenced case is protected from public disclosure on the following basis and that the following information is true:

1. In conformance with Federal Energy Regulatory Commission ("FERC") Order 2003 (July 24, 2003) and Order 2003-A (March 5, 2004), Idaho Power Company ("Idaho Power" or the "Company") has adopted FERC's Large Generator Interconnection Procedures ("LGIP") and Large Generator Interconnection Agreements ("LGIA") and has posted the LGIP and the LGIA on the Company's OASIS.

2. The LGIP are found in Appendix B to FERC Order 2003-A. The LGIA is Appendix 6 to the LGIP.

3. Telocaset Wind Power Partners, LLC ("Telocaset") has requested that Idaho Power enter into an LGIA for Telocaset's proposal that was submitted in response to the Company's 2005 Request for Proposals for Wind-Powered Generation ("2005 Wind RFP"). Idaho Power and Telocaset have not completed negotiations of Telocaset's LGIA.

4. Section 13.1 of the LGIP states that "Confidential Information shall include, without limitation, all information relating to a Party's technology, research and development, business affairs, and pricing and *any information provided by either of the Parties to the other prior to execution of an LGIA.*" (Emphasis added).

5. Pursuant to Section 13.1 of the LGIP, because Idaho Power and Telocaset have not completed negotiations of Telocaset's LGIA and the Telocaset LGIA remains unexecuted by the parties, any information concerning Telocaset's LGIA, including any network upgrade payments to made by Telocaset that may be subject to refund or reimbursement, is protected by the terms and conditions of FERC's LGIP.

6. Idaho Code Section 9-340A sets forth that any public record exempt from disclosure by federal or state law or federal regulations to the extent specifically provided for by such law or regulation is exempt from disclosure.

7. As of the date of this Certificate, Idaho Power represents that the information concerning the unexecuted Telocaset LGIA is confidential as defined in Section 13.1 of the LGIP (Appendix B to FERC Order No. 2003-A) and, therefore, pursuant to Idaho Code Section 9-340A is exempt from disclosure.

I, the undersigned attorney, in accordance with Idaho Public Utilities Commission Rule of Procedure 067, certify that the information sought in Request for Production No. 18 in the "First Production Request of the Commission Staff" in the above-referenced case is protected from public disclosure on the following basis and that the following information is true:

1. In conformance with Federal Energy Regulatory Commission ("FERC") Order 2003 (July 24, 2003) and Order 2003-A (March 5, 2004), Idaho Power Company ("Idaho Power" or the "Company") has adopted FERC's Large Generator Interconnection Procedures ("LGIP") and Large Generator Interconnection Agreements ("LGIA") and has posted the LGIP and the LGIA on the Company's OASIS.

2. The LGIP are found in Appendix B to FERC Order 2003-A. The LGIA is Appendix 6 to the LGIP.

3. Telocaset Wind Power Partners, LLC ("Telocaset") has requested that Idaho Power enter into an LGIA for Telocaset's proposal that was submitted in response to the Company's 2005 Request for Proposals for Wind-Powered Generation ("2005 Wind RFP"). Idaho Power and Telocaset have not completed negotiations of Telocaset's LGIA.

4. Section 13.1 of the LGIP states that "Confidential Information shall include, without limitation, all information relating to a Party's technology, research and development, business affairs, and pricing and *any information provided by either of the Parties to the other prior to execution of an LGIA.*" (Emphasis added).

5. Pursuant to Section 13.1 of the LGIP, because Idaho Power and Telocaset have not completed negotiations of Telocaset's LGIA and the Telocaset LGIA remains unexecuted by the parties, the information contained in Telocaset's LGIA is protected by the terms and conditions of FERC's LGIP.

6. Idaho Code Section 9-340A sets forth that any public record exempt from disclosure by federal or state law or federal regulations to the extent specifically provided for by such law or regulation is exempt from disclosure.

7. As of the date of this Certificate, Idaho Power represents that the information contained in the unexecuted Telocaset LGIA is confidential as defined in Section 13.1 of the LGIP (Appendix B to FERC Order No. 2003-A) and, therefore, pursuant to Idaho Code Section 9-340A is exempt from disclosure.

IDAHO PUBLIC
UTILITIES COMMISSION

I, the undersigned attorney, in accordance with Idaho Public Utilities Commission Rule of Procedure 067, certify that the information sought in Request for Production No. 17 in the "First Production Request of the Commission Staff" in the above-referenced case is protected from public disclosure on the following basis and that the following information is true:

1. In conformance with Federal Energy Regulatory Commission ("FERC") Order 2003 (July 24, 2003) and Order 2003-A (March 5, 2004), Idaho Power Company ("Idaho Power" or the "Company") has adopted FERC's Large Generator Interconnection Procedures ("LGIP") and Large Generator Interconnection Agreements ("LGIA") and has posted the LGIP and the LGIA on the Company's OASIS.

2. The LGIP are found in Appendix B to FERC Order 2003-A. The LGIA is Appendix 6 to the LGIP.

3. Telocaset Wind Power Partners, LLC ("Telocaset") has requested that Idaho Power conduct an Interconnection System Impact Study ("SIS") for Telocaset's proposal that was submitted in response to the Company's 2005 Request for Proposals for Wind-Powered Generation ("2005 Wind RFP"). The Company completed the SIS for Telocaset pursuant to its request.

4. The SIS, as defined by the LGIA, is an engineering study that evaluates the impact of the proposed interconnection on the safety and reliability of a utility's transmission system and identifies and details the system impacts that would result if the generating facility were interconnected without project modifications or system modifications. The SIS is one component that assists the parties in negotiating an LGIA.

5. Section 13.1 of the LGIP states that "Confidential Information shall include, without limitation, all information relating to a Party's technology, research and development, business affairs, and pricing and *any information provided by either of the Parties to the other prior to execution of an LGIA.*" (Emphasis added).

6. Idaho Power and Telocaset have not completed negotiations of Telocaset's LGIA and the Telocaset LGIA remains unexecuted by the parties. Pursuant to Section 13.1 of the LGIP, the information contained in Telocaset's SIS is protected by the terms and conditions of FERC's LGIP.

7. Idaho Code Section 9-340A sets forth that any public record exempt from disclosure by federal or state law or federal regulations to the extent specifically provided for by such law or regulation is exempt from disclosure.

8. As of the date of this Certificate, Idaho Power represents that the information contained in the SIS for Telocaset is confidential as defined in Section 13.1 of the LGIP (Appendix B to FERC Order No. 2003-A) and, therefore, pursuant to Idaho Code Section 9-340A is exempt from disclosure.
